DESCRIPTION. Kepco KIT, Model DIN ERX-60P contains a cover, cable kit, left and right mounting clips, and associated hardware (see Table 1) used to install ERX Series 60W power supplies on a DIN rail. The “P” suffix is for mounting the power supply perpendicular to the DIN rail as shown in Figure 1. Outline Dimensions are shown in Figure 5.

INSTALLATION

1. INSTALL COVER. Attach the cover to the power supply per instruction manual supplied with the cover.

2. INSTALL MOUNTING BRACKET. Attach the mounting bracket to the power supply using the hardware supplied (see Figure 2).

3. INSTALL CLIPS. Attach preassembled mounting clips into the mounting bracket holes using hardware supplied (see Figure 3).

4. INSTALL CABLE KIT. Attach wires to the power supply per Instruction Sheet supplied with cable kit.

5. INSTALL POWER SUPPLY ON DIN RAIL. To mount the power supply on the rail insert one end of both mounting clips under one edge of the rail, then snap the other end of the two clips into place (see Figure 4A).

REMOVING POWER SUPPLY FROM DIN RAIL. While grasping the power supply with one hand, Insert a screwdriver into the access holes provided and apply leverage towards the left as shown in Figure 4B to disengage each clip from the rail. Where mounting clips are close together, it may be necessary to apply leverage with two screwdrivers simultaneously.
