KEPCO MODEL PC—4 MATING CONNECTOR

DESCRIPTION. The Kepco Model PC—4 is a 24-terminal connector equipped with cable shell, cable clamp and locking screws. The PC—4 is designed to provide the correct termination for Kepco equipment with dual edge printed circuit rear connectors.

INSTALLATION (Refer to FIG. 1)

1)   Disassemble the connector insert and the connector shell by removing the two mounting screws (A, B).

2)   Wire the connector terminals and insert the plastic "key" into the correct position according to the information provided in your Kepco Instruction Manual.

3)   Reassemble the connector insert and the connector shell according to the Kepco model on which the PC—4 is to be used. (See notes in FIG. 1.)
